City Council Contemplates Se- Justice R. N. Baskin Upholds curing Spring Creek.

ENGINEER'S EXAMINATIONS QUIETS TITLE TO HOMESTEAD

CHEMIST HARMS TESTS WATER HOLDS PROPERTY BELONGING BY DIFFERENT METHODS.

The city council committee met yes-The city council committee met yesterday afternoon to consider the proposition of securing a water supply for Salt Lake City from Spring creek. George W. Show, city engineer, has been allowed about \$1,000 by the council to investigate the matter, and Herman Harms, city chemist, has made an examination of the water. The council will pass on the question at its session tomorrow evening. Chemist Harms, after making many elaborate that makes after making many elaborate the following comment on the value of the water:

Justice R. N. Baskin of the suprement court vesteday afternoon handed down a decision quieting title to the Andrew have announced their marriage engagement.

The decision went against her brother-in-law, Joseph H. Openshaw for the property, in 1881 Openshaw and his two brothers. In 1881 Openshaw son of the late Mr. and Mrs. George Mitton was down during the have announced their marriage engagement.

The decision the district court against her brother-in-law, Joseph H. Openshaw and his two brothers and barriage licenses have been fissued to Large Refer the case. For the decision was deal of the Marriage licenses have been fissued to lower court, and she appealed the case. Hill and Joseph G. Haddey have announced their marriage engagement.

The decision quieting title to the Andrew English homestead. Eliza English, his daughter. brought with a load of hay.

Marriage licenses of the Murray Mercantile Co., and general severing in the Taberna and Mattild Peterson. Sandy: Jerimiah Stockers. Ir. and Eugene Neff of East Mill creek: Walter son, Sandy: Jerimiah Stockers. Ir. and Eugene Neff of East Mill creek: Walter was again losing.

In 1881 Openshaw and his two brothers in the down of the Murray Mercantile Co., and the lower count, and she appealed the case. However, and marked the marriage engagement.

The decision was appealed to the Marriage light of t

"Notwithstanding the chances for contamination possible at all hours, both the chemical analysis and the bacteriological examination show the wa-ter to be of 'good' purity, fully meeting all sanitary requirements and perfect-ly fit for all culinary and domestic

This water contains a fair amount of solids or mineral matter. Organically considered, the yield of ammonia all hours, no contamination whatever sewage, drainage or seepage has taken place. Both the chemical analysis and the bacteriological examinaquality, fully meeting all sanitary requirements and perfectly fit for all-domestic and culinary purposes. See also in repairing the house. The two little and the fold was all sanitary requirements and perfectly fit for all-domestic and culinary purposes. See also in repairing the house. The two little and the fold was also in repairing the house.

"The subterranean and the various creek waters are of identical character excepting the organic purity, which is greater in the flowing well than in the

Solids in the Water.

"No objection whatever can be urged against the character of the mineral constituents, the same constituting the ordinary ingredients of nearly all drinking waters. Objectionable constituents, such as calcium chloride, magnesium chloride, excess of iron or traces of poisonous metals are entirely

"Concerning quantity, the water car-ries a fair amount which would fall between our City creek and Parley's canyon water, the former carrying 14 grains and the latter ordinarily 22-24 grains of total solids per United States gallon. (Emigration canyon water car-

"No particular objection can be urged the quantity of solids, although a water, as low as possible in mineral matter, is the more desirable one for general drinking, household (saving of oap), and manufacturing or boiler purposes. Few authorities have atfor solids in a drinking water, for the left him. bvious reason of the exceedingly various geological formations in the differ-ent localities. 'Unless a water contains' Oline Anderson, alimony up to Dec. 1, more than 40 grains per gallon, no exception need be taken to the solids as such, and if the solids do not exceed 30 or 40 grains per gallon, this has paid neither the September, Octoamount of solids affords no reason for her nor November allmony.

made right on the grounds upon the water at the time of collection and confirmed by the laboratory tests show

Judge Stewart vesterday continued ean water is certainly remarkable for its organic purity. No contamination or pollution by sewage, seepage or drainage has taken place, notwith-standing the possible pollution at any time by conditions as they exist at present. Comparing the organic matter of the City creek and Parley's water, the last examination of these supplies, made Aug. 9, 1904, showed: "City Creek-Free ammonia, .15 part

per million; albuminoid ammonia, .13 part per million; total, .30 part per mil-Oxygen consumed, .80 part per "Parley's Creek-Free ammonia, .15

part per million; albuminoid ammonia, 15 part per million; total, .39 part per million. Oxygen consumed, 1.18 parts (Both these sources gave a much

higher purity on this date, Aug. 9, 1904, than at any previous tests made.) The water is absolutely odorless colorless, sparkling, proper temperature -in brief, inviting to the eye and pal-ate. For domestic, culinary and manu-facturing purposes, the Spring creek water forms, in my opinion, a very de sirable source of supply It is, how ever, essential that proper steps be taken, so as to avoid any possible chance of contamination or pollution of the water from the surrounding territory as to conditions existing at pres-

"In conclusion, I beg to state that all samples were collected personally in the presence of George W. Snow, city engineer, in absolutely sterile bottles. and all samples submitted as soon as practicable to the respective analyses and examinations. It is scarcely necessary to state that absolutely new apparatus, absolutely pure chemicals and reagents were used and all samples subjected under exactly the same conditions to the most severe and thorough tests, with greatest care and scientific

Clerk of the Board of Public Works Cured by Paw-Paw.

R. J. Shields, of Pougakeepsie, N. Y., is one of the best known men in eastern New York, especially in political circles. He says that "Mirnyon's Paw-Paw straightened out a balky stomach, restored his appetite, brought him good sleep and made him a well man. He says it is a wonderful medicine."

Is it unreasonable for me to expect his people who are sick will take note of such testimony as this and give themselves the same chance for health that Mr. Shields did?

STATE NEWS

MURDEROUS ASSAULT

Drunken Finn Beats Policeman Into Insensibility.

Eureka, Nov. 12.—A dozen heavily armed men spent the morning hours in search of Otto Harro, a Russian Finn, for a vicious assault committed at 5 o'clock of Otto Harro, a Russian Finn, for a vicious assault committed at 5 o'clock this morning on Joseph Larson, a city policeman. Mayor Stack offered a reward of \$50 for the apprehension of Harro, and Sheriff Cronin a like amount. Harro and his brother, Ed, were deinking all night and creating considerable disturbance. About 6 o'clock Officer Larson started home with Ed Harro. Ed hung back and Larson pulled his gun, a heavy Cok's, to enforce his commands. Otto Harro selzed Larson's pistol hand and wrenched it back, took the officer's gun from him and beat him into unconsclousness. Ed Harro was afterwards arrested, but Otto escaped. His description has been sent broadcast over the country, together with the offers of reward and the town and surrounding country is being closely watened, and there is little chance for his escape. The fugitive is 32 years of age, light complexion, light moustache, five feet eleven and one-half inches tall and weighs 195 pounds.

pounds.
Harro was captured about 3 o'clock by Deputy Sheriff Schooler haif a mile west of town without resistance. He was bareheaded and his hair was matted with blood from a wound on the heal which evidently had been administered by Patroman Larson in the fight, Larson is he bed and suffering considerably with his injuries, but will recover. He has several severe wounds on the head and face.

Government Engineers on the Ground to Perfect Detail Work.

Lehi; Nov. 12 .- A. H. Horton and a corps of government surveyors came down yesterday to make the final survey on the Utah lake reservoir and to perfect the detail work on the channel that will draw the water off the lake.

The work at present is being confined to locating a new channel for the river and making the necessary soundings, so that the nature of the soil to be excavated may be ascertained.

The preliminary survey having been proven the property which would be suitable for building sites.

D. R. Beebe, manager of the Beebe with a severe attack of intestinal trouble. County Assessor Thorne is over from Pleasant Grove.

Don C. Clayton, ir., aged 22, of Provo Bench, and Aretta Burr, aged 17, of Burryille have taken out a marriage lineage.

wated may be ascertained.

The preliminary survey having been completed some time ago the work being done now is construed by people here to mean that the work on the plans will now be rushed, and when completed that active work on the actual construction will be taken up. While the men in charge are loth to give any information there is a sentiment among them that Court Notes.
